

## **EXCEPTIONAL INTERIOR DESIGNER WITH BIM EXPERIENCE**

### **Description:**

We are seeking an excellent Interior Designer who can quickly develop designs and construction documents, coordinate consultants and interact well with project staff and partners. A prospective candidate should be capable of understanding and applying codes and regulations, completing assignments per schedule, and producing quality documentation. Experience in senior living is a requirement.

### **Requirements:**

- At least 3-5 years of experience in an interior design or architectural office
- Capable of taking a project from concept through design and construction integrating interior architecture, finishes and furnishings.
- Proficiency in BIM (ArchiCAD/Revit)
- Basic understanding of building and life safety codes
- Aptitude in construction and construction details
- Strong organizational and communication skills
- Demonstrated problem solving and critical thinking skills with an aptitude for thinking ahead to meet project goals
- Motivated and flexible
- Professional demeanor

### **Education Required**

Accredited Interior Design Degree

### **Compensation/Benefits:**

This is a full-time salary position with pay commensurate with experience.

### **About Pi Architects:**

We are an established multi-disciplinary design firm specializing in the creation of senior housing environments. We have a talented group of designers dedicated to improving the quality of life of the people who live and work in the projects we design.
