

Interior Designer: Small Architects is seeking a licensed, experienced Interior Designer (5+ years experience) to join our team. This position includes the prime responsibility of the firm's interior design approach, including the selection and recommendations for interior material finishes, color schemes, and FF&E procurement packages. Project types range from churches, office buildings, education, museums, historic preservation, community centers, retail centers, office buildings, and similar uses for both private and public clients. Candidates should be proficient with AutoCAD Architecture software, and other project development tools. LEED registration and experience with Revit BIM are also advantages. **Eligible candidates can submit resumes in confidence to: tsmall@smallarchitects.com.**
