

SENIOR INTERIOR DESIGNER

th+a is a team of Dallas-based Architects and Interior Designers who believe that brilliant design has the power to improve the quality of life. This is outlined in our Mission Statement:

The team at th+a seeks opportunities to improve the lives of others. We accomplish this through our design of the environment and support of social justice initiatives in an ongoing determination to enhance the wellbeing of our society.

We invite you to join our team and the next generation of talented professionals.

th+a is seeking a Senior Interior Designer with 8+ years of experience and an interior design license to support our work in healthcare, education (PK-12), early childhood, and the commercial interiors markets. This role will be instrumental in helping us create dynamic space that enhances the learning process, assists in the patient healing process, and improves the environments in which we live, work, and play. At th+a, you will be a part of an amazing team that makes a difference in people's lives.

As our Senior Interior Designer, we can offer you unique hands-on experience through innovative projects with the best partners in the industry. And because you will be surrounded by a diverse, talented team, you will gain access to a wealth of knowledge and proficiency. We offer competitive compensation, a great benefit package and an empowering work environment.

We will look to you to help us direct our Interior Design team through areas of client management, mentorship and thought leadership. You'll have the freedom to manage important relationships with your team and your clients while enjoying the creative control of the interior design of projects from schematic design through construction. We will welcome your ideas and ask you to keep us current of the latest trends in the industry.

Position requirements include but are not limited to:

- Education requirements: Bachelor's Degree in Interior Design
- Professional License Required
- LEED Accreditation and/or knowledge of designing environmentally responsible projects
- Experience: Minimum of 8 years
- Software skills: Revit, AutoCAD, and Adobe Creative Suite. Rendering skill a plus

Essential Job Functions:

1. Day to Day oversight and design leadership on multiple projects
2. Ability to work on collaborative teams
3. Manage and Maintain relationships within the industry and our clients
